A DELEGATION FROM NAPLES VISIT BILBAO TO KNOW ITS URBAN TRANSFORMATION

Bilbao's urban transformation remains a reference for many cities in Europe. On this occasion, a delegation from Naples (Italy) is visiting Bilbao to see its urban evolution first hand. The seven people who make the Neapolitan representation are meeting today with the Deputy Mayor of Bilbao, who will give them the details of the urban and economic transformation the city has undergone in recent years and which has served as a model for different cities around the world.

The Italian delegation includes the presence of Urban Planning Advisor of Naples Town Council, Luigi de Falco, and the chairmen of the organizations Citta di Partenope and Bagnolifutura, Claudio Agrelli and Omero Ambroni, respectively. Citta di Partenope, promoter of the visit to Bilbao, is an organization dedicated to promoting civic culture and the sense of legality in society and public administration.
